Colorbox

Insert module settings

Darstellung

Keine (Originalbild) ▼

Select which image style to use for viewing images in the colorbox.

Insert image gallery

- Per page gallery
 No gallery

Should the gallery be all images on the page (default) or disabled.

Extra features

- Enable Colorbox load

This enables custom links that can open forms and paths in a Colorbox. Add the class "colorbox-load" to the link and build the url like this for forms `"/colorbox/form/[form_id]?destination=some_path&width=500&height=500"` and like this for paths `"[path]?width=500&height=500&iframe=true"` or `"[path]?width=500&height=500"` if you don't want an iframe. Other modules may activate this for easy Colorbox integration.

- Enable Colorbox inline

This enables custom links that can open inline content in a Colorbox. Add the class "colorbox-inline" to the link and build the url like this `"?width=500&height=500&inline=true#id-of-content"`. Other modules may activate this for easy Colorbox integration.

Styles and options

Style

Standard ▼

Select the style to use for the Colorbox. The example styles are the ones that come with the Colorbox plugin. Select "None" if you have added Colorbox styles to your theme.

Optionen

- Standard
 Benutzerdefiniert

Use the default or custom options for Colorbox.

[Erweiterte Einstellungen](#)

Caption shortening

- Standard
 Ja

If the caption should be made shorter in the Colorbox to avoid layout problems. The default is to shorten for the example styles, they need it, but not for other styles.

Show Colorbox on specific pages

- Alle Seiten außer den angegebenen
 Nur die aufgelisteten Seiten

```
admin*
imagebrowser*
img_assist*
imce*
node/add/*
```

Geben Sie Seiten an, indem Sie deren Pfade angeben, ein Pfad pro Zeile. Das Zeichen '*' ist ein Platzhalter. Beispiele für Pfade sind `blog` für die Blog-Seite und `blog/*` für jeden persönlichen Blog. `<front>` ist die Startseite.

Choose Colorbox compression level

- Production (Minified)
 Development (Uncompressed Code)
