uc_auction.module

- Line 22: Module .info files must now specify all loadable code files explicitly. (Drupal Docs) 🚫

- Line 104: Permissions are required to have titles and descriptions in hook_permission. (Drupal Docs) 🚫

  ```
  return array('place bid', 'view bids', 'view full bid info', 'delete bids'
  ```

- Line 110: Parameters to hook_form_alter have changed. 🚫

  ```
  function uc_auction_form_alter(&$form, $form_state, $form_id) {
  ```

- Line 139: Arrays should be formatted with a space separating each element and assignment operator ⚠️

  ```
        '#weight'=> 8,
  ```

- Line 403: Control statements should have one space between the control keyword and opening parenthesis ⚠️

  ```
      if($form_state['submit_handlers']['0'] !== 'node_form_delete_submit'){
  ```

- Line 403: use a space between the closing parenthesis and the open bracket ⚠️

  ```
      if($form_state['submit_handlers']['0'] !== 'node_form_delete_submit'){
  ```

- Line 425: Context has been added to t as the third parameter, locale has to be an element in the array. Example: array("context" => "frontpage", "locale" => "de"). (Drupal Docs) 🚫

  ```
          form_set_error('start_price', t('The start price for this auctione
  ```

- Line 449: hook_nodeapi has been split into a number of smaller hooks. (Drupal Docs) 🚫

  ```
  function uc_auction_nodeapi(&$node, $op, $a3 = NULL, $a4 = NULL) {
  ```

- Line 565: else statements should begin on a new line ⚠️

  ```
        } else {
  ```

- Line 676: hook_user has been removed in favour of hook_user_$op functions, for example 🚫 hook_user_validate. (Drupal Docs)

  ```
  function uc_auction_user($op, &$edit, &$account, $category = NULL) {
  ```

- Line 1274: Control statements should have one space between the control keyword and opening parenthesis ⚠️

  ```
      if(!is_numeric(strpos($div, '.')) === TRUE){
  ```

- Line 1274: use a space between the closing parenthesis and the open bracket ⚠️

```
        if(!is_numeric(strpos($div, '.')) === TRUE){
```

- Line 1276: else statements should begin on a new line ⚠️

```
        } else {
